Special Olympics COVID-19 e-Learning Course

Please contact Lindsay Bartsch if you plan to take the class -

lindsay.bartsch@specialolympics-hc.org

With the help of athletes and Program Staff, we have developed a 15-20 minute eLearning course for our Special Olympics community about COVID-19.

This course is designed to cover the basic information about the coronavirus (COVID-19) including: what is the coronavirus, what are the symptoms, how does it spread, and how you can protect yourself.

This course is great to review with your family, friends and clients! There are videos, pictures and questions to help to truly understand the information.

We encourage the entire Special Olympics community to complete this module at learn.specialolympics.org

Please see [instructions](#) for accessing this course. If you have any questions, please do not hesitate to reach out.

Thank you for your efforts to keep our community safe!

Lindsay Bartsch

A handwritten signature in cursive script that reads "Lindsay A. Bartsch".
