

Community Health Assessment 2025

● Village of Lincoln Heights ●

Introduction

The WeTHRIVE!SM Community Health Assessments (CHA) paint a comprehensive picture of the community's current and past health status, factors contributing to higher health risks and poorer health outcomes, needs in the community, and community resources available to improve health.

The WeTHRIVE! CHA helps aid community partners, stakeholders and residents in identifying priority health issues, developing goals, and selecting strategies to improve residents' health. The data comes from multiple sources, including surveys, surveillance systems and landscape reviews (see data notes QR code). Using multiple data sources allows for a comprehensive picture of the health of the community. The Hamilton County CHA released in 2025 provides an overview of the health of Hamilton County, while the WeTHRIVE! CHA allows WeTHRIVE! teams to take a deeper dive into their community-specific data.

This report includes the following topics relevant to health and wellness of residents within the community:

- Community Context (who makes up your community)
- Healthcare and Health Outcomes
- Economic Stability
- Neighborhood and Built Environment
- Assets and Opportunities
- Recommendations

"Public health in Hamilton County means working together to ensure that all of our residents have the opportunity to thrive both individually and collectively. When people are healthy, they can lead fuller, happier lives while also contributing to the local economy and culture."

-Greg Kesterman, Hamilton County Public Health, Health Commissioner

WeTHRIVE! Overview

The WeTHRIVE! initiative of Hamilton County Public Health is a paradigm shift that engages communities, and schools and child care providers to make meaningful and sustainable policy, environmental, and system changes where people live, work, learn, and play, ensuring that all individuals have the opportunity to thrive. The WeTHRIVE! initiative works to create a culture of health, safety, and vitality throughout Hamilton County. The four pillars of WeTHRIVE! are:

SUPPORT

WeTHRIVE! Population Health Specialists help start a team, offer assistance, and connect the teams to resources.

DATA

The most up-to-date public health [data](#) is shared to help determine areas of need and plan for the future.

COLLABORATION

The WeTHRIVE! initiative fosters a culture of collaboration by bringing together child care providers, communities, schools, and [partner organizations](#).

RECOGNITION & CELEBRATION

The initiative is all about celebrating the positive progress and changes our amazing teams work so hard to implement.

We
THRIVE!
Community Wellness in Action™

WeTHRIVE! CHA Process

As part of data provided to WeTHRIVE! communities, the WeTHRIVE! CHAs are completed every three years to provide an opportunity to take a deeper dive into the annual WeTHRIVE! Data Profiles that are shared with each active WeTHRIVE! community. The WeTHRIVE! CHAs are developed by the Health Promotion & Education and Epidemiology divisions at Hamilton County Public Health. The Epidemiology division reviews and analyzes a variety of data sources that include health, social, economic, and environmental indicators to help paint a picture of the health and wellbeing of a community. To expand on data, the Health Promotion and Education division works with WeTHRIVE! teams to provide community context and lived experiences through the WeTHRIVE! Landscape Review. The WeTHRIVE! Landscape Review looks at community conditions and resources related to the WeTHRIVE! pathways that impact residents overall health by driving/walking around the community to get a visual representation of the community. Together, data is compiled into a list of assets, opportunities, and recommendations that are specific to each community to provide team members with the actionable strategies to promote the health of all residents.

Community Context , 2023

To effectively enhance health outcomes, it's important to comprehend the context in which these issues arise. Understanding the community context is a foundational and vital step in promoting positive health within a community. In this report, community context encompasses population demographics, including age, gender, and race/ethnicity.

Population by Age

Population by Race/Ethnicity

Healthcare and Health Outcomes : 2019 - 2023

Access to quality healthcare is a major component of increasing quality of life for all people. Barriers to healthcare, such as gaps in health insurance coverage, can delay access to preventative services that can lead to preventable disease and premature death. There are a variety of metrics we can look at to measure the overall health of a community such as mortality rates, uninsured rates, rates of infectious disease, and more. All of these metrics allow us to gain a better understanding of the health needs of the community.

Top Five Leading Causes of Death by Age - Adjusted Mortality Rates (per 1,000)

Child Fatality Rate (per 1,000)

1.3 ♦

Infant Mortality Rate (per 1,000)

26.6 ♦

♦ = less than 20 cases. Please see data notes at end of report for more information on the significance of small numbers.

Healthcare and Health Outcomes : 2019 - 2023

Preterm Births

Asthma Related Emergency Department Visits, 2023*

Overdose Related Emergency Department Visits*

Naloxone Kits Distributed*

♦ = less than 20 cases. Please see data notes at end of report for more information on the significance of small numbers.

* = This data is ZIP codes that cover the Village of Lincoln Heights. The ZIP Code is: 45215

Economic Stability, 2023

The economic stability of individuals within a community can have a lasting impact on the overall health of that community. Economic stability means that individuals have sufficient and reliable income to pay for expenses such as healthcare. Lack of economic resources makes it more difficult for an individual to access healthcare and sustain healthy behaviors. There are a variety of metrics to look at that can measure the overall economic stability of a community such as unemployment rates, household income, rates of households receiving public benefits, and more.

Neighborhood & Built Environment, 2023

The built environment is the man-made space where individuals live, work, and play on a day-to-day basis. This includes buildings, parks, sidewalks, streets, public transportation and other spaces that have been created or modified. It can affect the potential for injuries related to pedestrian and motor vehicle crashes. It can also affect an individual's access to healthy food, recreation opportunities and clean, safe places to work and play.

Motor Vehicle Crashes

0.5% Motor vehicle crashes involving a pedestrian or bicyclist ♦

10% Motor vehicle crashes involving a child or teenager

4.9% Motor vehicle crashes involving drugs or alcohol ♦

Assets & Opportunities

Assets

- There are annual Village of Lincoln Heights sponsored events and recreational programming provided by the Heights Movement and St. Monica's in Lincoln Heights that encourage social connectedness.
- The HealthCare Connection Inc. Lincoln Heights Health Center is a federally qualified health center in the Village of Lincoln Heights that provides primary healthcare services to underserved communities.
- There are two newly renovated public parks, Memorial Fields and Serenity Park, and a basketball court in the Village of Lincoln Heights that provide residents different opportunities for physical activity.
- The Village of Lincoln Heights has two charitable food systems, Lincoln Heights Outreach Incorporation and The Revealed Holiness House of God who provide access to healthy food.
- The percentage of children with elevated blood lead levels below the age of five in the Village of Lincoln Heights is 2.3 times lower than other villages within Hamilton County.

Opportunities

- There are no recycling cans available in the Village of Lincoln Heights parks, green spaces and bus stops.
- Not all Village- owned properties have posted tobacco-free or smoke-free signage.
- The school located in Village of Lincoln Heights, Lincoln Heights Elementary School, does not have an updated Safe Routes to School Travel Plan.
- The rate at which Lincoln Heights residents die from an unintentional, accident-related injury is 2.5 times higher than other Villages in Hamilton County.
- The percentages of households without a vehicle in Lincoln Heights is 2.4 times higher than other Villages in Hamilton County.

Recommendations

The following recommendations are based on the assets and opportunities identified for your community. The corresponding WeTHRIVE! pathway or pathways for each recommendation are indicated to the right of each recommendation.

= Chronic Disease Pathway

= Injury Prevention Pathway

= Environmental Health Pathway

= Harm Reduction Pathway

= Emergency Preparedness Pathway

= Social Health Pathway

Recommendations	WeTHRIVE! Pathway
Partner with Hamilton County ReSource to determine the best strategies to increase access to recycling receptacles throughout the community and apply for Hamilton County ReSource Grants and Funding Resources.	
Increase awareness of tobacco-free policies in place within the Village of Lincoln Heights but putting by tobacco-free signs at parks and on all village-owned property.	
Form an Active Transportation Sub-Committee to update Lincoln Heights Elementary School's Safe Routes to School plan to improve the walking/biking/rolling infrastructure in the village and encourage more students to walk/bike to school.	  
Leading causes of accidents include falls and unintentional overdose. Partner with organizations like Council on Aging or People Working Cooperatively to offer free fall/injury prevention programming to seniors. Partner with Hamilton County Public Health's Harm Reduction Division to distribute harm reduction supplies, such as naloxone and fentanyl test strips, in local businesses and community gathering spaces to help prevent overdoses, reduce harm, and increase awareness of substance use safety.	 
Work with the Active Transportation Subcommittee and partner with Hamilton County Planning and Development to increase community walkability and improve community usage of alternate transportation.
